- Live Audio
- Live In-Car Cameras
- Play Fantasy Racing

## Firestone FAST FACT

Firestone Racing considers a variety of factors in designing tires for each NTT INDYCAR SERIES event, including weather. Track temperature can impact how race tires grip the surface and the speed at which cars can travel, that's why Firestone Firehawk race tires are made to accommodate temperature swings of 50 degrees or more at a specific circuit. That consideration allows the same race tire design from July's GMR Grand Prix at IMS to be used in the cooler temperatures expected on the same track at the new INDYCAR Harvest GP Presented by GMR.
